

WATER CONSULTANTS

H2O Building Services provides a single point of contact for all commercial water supply needs, from technical support to project management and installation.

Our nationwide consultancy service provides **the expertise you need to save money on your water bill**, be it validating supplier rates or repairing water leaks. We keep track of how much you are spending on water, how efficiently you are using it and **where you can make savings in the future.**

LEAK DETECTION & REPAIR CONSULTANCY INCLUDES

- All inclusive leak detection³
- All inclusive repair service⁴
- Data analysis
- Flow logging⁵

DISTRIBUTION SYSTEM SERVICES

- Water bylaw inspections and reporting
- Risk assessment surveys
- Pipeline condition surveys
- Pressure management design.

OUR WATER BILL CONSULTANCY SERVICE INCLUDES

- Bill audits
- Comprehensive site surveys
- Bespoke reports into water and effluent cost reduction.

By monitoring your bills, **we ensure you pay exactly what you owe** so you never end up overpaying for anything that you shouldn't be charged for. Our water bill consultancy is an inclusive service¹ that could **in the long run save you a lot of money.**

OUR DEMAND MANAGEMENT CONSULTANCY SERVICES COVER THE SUPPLY AND INSTALLATION OF:

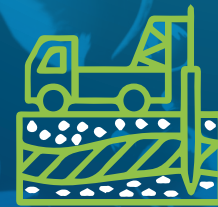

- Water meters
- Flow-Tec P.I.R urinal flush controls
- Pressure Reducing Valves (PRVs)
- New water supplies
- Aeroflow shower heads
- Aeroflow low flow showers.

ADDITIONAL WATER CONSULTANCY SERVICES

- On-line 24hr monitoring and targeting.
- Billing collection and bureau service.
- Water management training and support².

Faulty water meters are a leading cause of businesses being overcharged on their water bills. **New water meters will make sure you are always getting the correct reading.**

MAKE SUBSTANTIAL SAVINGS FROM BOREHOLES, RIVERS & CANALS.

WE OFFER:

- Borehole feasibility studies
- Geological surveys
- Design and implementation services
- Private finance, substantial savings for NIL capital
- Water recycling.
- Effluent sampling, treatment and disposal
- Design and installation for boreholes, plants and equipment, water treatment and filtration.
